Monday	11/09/2023	AM		IS646	Stable setup					22Ne for Miniball? TBC	
		PM									
		night									

Summary of week IS557 will finish on Monday morning. Switch to 79Zn with energy 4MV/u, to be confirmed if protons remain on convertor or not. Target change and possible MEDICIS target on GPS IS on Wednesday morning. HRS target online next week, but will be only required in W38, can be left at conservative heating next week.

GPS: . **#811 UC HQ n**: same target configuration as on HRS, follow these settings for setup. HT = 30kV. Beam to Miniball for two runs: 80Zn @ 4.7MeV/u and **79Zn @ 4MeV/u**. TBC if protons will remain on convertor for IS646

HRS: **#816 UC**. Setup at 30kV. Used target. Will be used for Miniball run in W38. **NOTE**: the MEDICIS settings are the following: low trolley H:-10 V:-63, 2uA.

Protons: NORMGPS up to 2uA all week.

Operations responsible: Miguel (169616) until Tuesday 5 September. Alberto (167538) until Tuesday 12 September.
